SOUTHEAST ALASKA GEODUCK CLAM FISHERY ANNOUNCEMENT

Ketchikan. . . The Alaska Department of Fish and Game announced today the following information regarding the Southeast Alaska commercial geoduck clam fishery.

The following areas, as described in the September 14, 2012 geoduck fishery news release, will be open for the commercial harvest of geoduck clams for live sale **with a 1,000 pound limit per diver from 9:00 a.m. to 3:00 p.m., Thursday, November 29, 2012:**

District 1:

Foggy Bay (Subdistrict 101-23-001): will be open for a remaining harvest of 17,000 pounds of whole geoduck clams;

District 3:

Blanquial Islands (Subdistrict 103-70-005): will be open for a remaining harvest of 23,300 pounds of whole geoduck clams;

St. Nicholas Channel, North Lulu Island (Subdistrict 103-70-007): will be open for a remaining harvest of 110,000 pounds of whole geoduck clams;

Port Alice /Cone Bay (Subdistrict 103-90-002): will be open for a guideline harvest level of 9,300 pounds of whole geoduck clams.

By regulation, all geoduck clams harvested must be clearly labeled with the date of harvest, the harvester's name and the location of harvest. All geoduck clams harvested during a commercial fishery must be recorded on a fish ticket and are counted towards the 1,000 pound limit. Pounds of geoduck clams harvested over the 1,000 pound limit are considered property of the State and may not be retained as personal use.

In order to facilitate weekly sampling schedules the Alaska Department of Fish and Game must receive timely information about the harvest by area. Divers are requested to contact the company buying their geoduck clams with an estimate of pounds harvested. **All companies buying geoduck clams are requested to contact the Alaska Department of Fish and Game, Division of Commercial Fisheries, Ketchikan office before 12:00 noon on Friday, November 30, 2012, with a harvest estimate by subdistrict.**

The emergency order corresponding with this announcement is EO 1M3412.
